Major Kitchen Repairs

Our kitchen was a buzz with repairs all summer. An 'elderly' commercial dishwasher and gas stove proved to be tests in these times of supply chain issues. Good news is that the kitchen is up and running for the Tuesday lunches. Our volunteers are rested and ready to go!
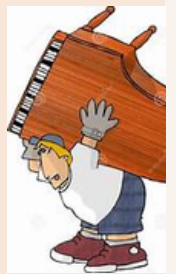

But... we do need your help!

When you attend the lunch, you are now asked to assist our clean-up team by scraping your plate at your table, then taking it to the 'soiled plates station' provided. This really helps the clean-up crew so that they can go home in a timely fashion!

Please help these hardworking volunteers
